ASHG 2021 Ancillary Session

1:00-2:30 PM ET, Monday, October 18th, 2021

Program
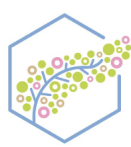

HuGeAMP
HUMAN GENETICS AMPLIFIER

Genetic, epigenomic, and functional approaches to identifying effector genes for complex diseases

- Translational functional genomics of diabetes as a model for complex disease research
  – Anna Gloyn

- An Effector Index to Identify Causal Genes at GWAS Loci
  – Brent Richards

- Integrated and curated approaches to generating effector lists for CAD
  – Krishna Aragam

- Providing access to effector gene predictions for complex disease researchers
  – Jason Flannick
- Opening remarks
  – Noël Burtt

Join the webinar Passcode: 971794
